DETAILED ACTION

Rejections Set Forth in the Office Action dated June 5, 2002

Claim 15 was rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-8, 12-18 and 20 were rejected under 35 U.S.C. 102(b) as anticipated by U.S. Patent No. 6,080,425 to MILJKOVIC.

Claims 1-20 were rejected under 35 U.S.C. 103(3) as being unpatentable over MILJKOVIC.

Terminal Disclaimer

The terminal disclaimer filed on August 22, 2002 disclaiming the terminal portion of any patent granted on this application that would extend beyond the expiration date of U.S. Patent No. 6,080,425 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to the Amendment filed August 22, 2002

In the amendment filed August 22, 2002, claim 15 was amended.

An action on the merits of claims 1-20 is contained herein below.

In regards to the Rejection of claim 15 under 35 U.S.C. 112, second paragraph, Applicant's amendments filed August 22, 2002 have been fully considered and have overcome the Objection set forth in the Office Action dated June 5, 2002 (claim amended).

In regards to the Rejection of claims 1-8, 12-18 and 20 under 35 U.S.C. 102(b) as anticipated by U.S. Patent No. 6,080,425 to MILJKOVIC, Applicant's amendments filed August 22, 2002 have been fully considered but they are not persuasive. The Rejection of claims 1-8, 12-18 and 20 is maintained for the reasons of record as set forth in the Office Action dated June 5, 2002.

In regards to the Rejection of claims 1-20 under 35 U.S.C. 103(3) as being unpatentable over MILJKOVIC, Applicant's terminal disclaimer filed August 22, 2002, has been fully considered and has overcome the Rejection set forth in the Office Action dated June 5, 2002.

Response to Arguments

Applicant's arguments filed August 22, 2002 have been fully considered but they are not persuasive.

In response to the argument that MILJKOVIC does not disclose the collagenase activity of the boron-containing compound, it is noted that the collagenase activity is an inherent property of the boron-containing compounds. The similar compositions employed and the similar end uses envisioned indicate that the compositions of MILJKOVIC would be expected to exhibit similar properties. Therefore, though MILJKOVIC does not disclose the collagenase activity of the boron-containing compounds, this is a quantification of an inherent property of the boron-containing compounds. As the Office is not equipped to perform such testing, the burden of proof rests upon the applicant to show an actual difference in the properties observed.

The mere failure of a reference to disclose all the advantages asserted by applicant is not a substitute for actual differences in properties. In re DeBlauwe, 22 USPQ 191. An apparently

Art Unit: 1623

old composition cannot be converted into an unobvious one simply by the discovery of a characteristic one cannot glean from the cited prior art. *Titanium Metals Corp. v. Banner*, 227 USPQ 773.

Accordingly, the burden of proof is upon the Applicant to show that the instantly claimed subject matter is different from and unobvious over that taught by the prior art relied upon. In re Brown, 173 USPQ 65, 689; In re Best, 195 USPQ 430; In re Marosi, 21 USPQ 289, 293.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by MILJKOVIC.

MILJOKOVIC discloses a cosmetic composition comprising a boron complex in a suitable solvent system, in a microemulsion or macroemulsion, or in a suitable liposome form (com. 3, lines 10-14). The boron is complexed with fructose, sorbose, mannitol, sorbitol, xylitol, ascorbic acid, serine or theonine (col. 2, lines 49-63). The compositions are preferably adapted for efficient penetration through the skin stratum corneum barrier when applied topically (col. 3, lines 16-18). The compositions are to be rubbed onto the skin several times per day (col. 5, lines 19-28) to reduce skin wrinkles (col. 2, lines 37-42). While MILJKOVIC does not disclose the compositions as being collagenase inhibitors, this property is considered an inherent property of the boron-containing compound, as set forth supra. Therefore, though MILJKOVIC does not disclose the collagenase activity of the boron-containing compounds, this is a quantification of an inherent property of the boron-containing compounds. As the Office is not equipped to

Art Unit: 1623

perform such testing, the burden of proof rests upon the applicant to show an actual difference in the properties observed.

The mere failure of a reference to disclose all the advantages asserted by applicant is not a substitute for actual differences in properties. In re DeBlauwe, 22 USPQ 191. An apparently old composition cannot be converted into an unobvious one simply by the discovery of a characteristic one cannot glean from the cited prior art. Titanium Metals Corp. v. Banner, 227 USPQ 773.

Accordingly, the burden of proof is upon the Applicant to show that the instantly claimed subject matter is different from and unobvious over that taught by the prior art relied upon. In re Brown, 173 USPQ 65, 689; In re Best, 195 USPQ 430; In re Marosi, 21 USPQ 289, 293.

Conclusion

Claims 1-20 are pending. Claims 1-20 are rejected. No claims are allowed.
